Karawang, Jawa Barat

Software Engineer with over 3 years of experience in developing web, mobile, and desktop applications using modern frameworks and tools. Skilled in C#, .NET, Angular, Flutter, and SQL. Passionate about improving UI/UX, optimizing system performance, and solving complex technical challenges to deliver impactful, user-centric solutions.

Work Experiences

PT. Indopoly Swakarsa Industry Tbk. - Purwakarta, Jawa Barat Jan 2025 - Jul 2025

Business Application Developer

- Develop Existing ERP Applications (C#, ASP.NET)
- Develop New Projects with ReactJS
- Involved in IoT implementation
- Develop Desktop Application using WinForms
- Develop Mobile Application using Flutter

PT. Tera Multi Wahana - Jakarta Selatan Jan 2023 - Dec 2024

Full Stack Developer

- Involved in development and maintained web applications to support business process such as enhanced logistic operation, maintain stock management and inventory tracking, and simplify business strategy creation
- Enhanced UI/UX of mobile application MyAsahimas, resulting in higher playstore rating from 2.8 to 3.9 by ensuring faster performance and reduce application crashes
- Improved UI/UX of web applications with minimum loading time and high accessibility, resulting in enhanced user satisfaction and engagement by learning user behavior and implementing design best practices
- Accomplished faster database query fetching time from 15 seconds to 3 seconds with more than 100K datasets in inventory stock point by optimizing SQL Queries
- Implemented and adapted a new GraphQL technology by replacing REST API to web applications, resulting in faster web project development and smaller network size by optimizing required data to be displayed as minimum as possible
- Participated in Agile development processes, including quick response to user feedback and suggestion, to ensure timely project delivery and customer satisfaction

Education Level

Universitas Bina Sarana Informatika - Sukabumi, Jawa Barat Sep 2022 - Sep 2023

Bachelor of Information Systems, 3.90/4.00

- Conducted research in KEMENAG Kabupaten Karawang and developed a web application to enhance BIMWIN processes
